## SIDE PROJECTS

- Portfolio2 - Currently updating my portfolio page using React, Next.js, Node, Express, and Auth0 - not yet deployed but made available on Github.
- FeedBackApp - Survey template and email generator, made using React, Express, Node, Google O Auth, and Stripe.
- Inspire - Utilized quote and image APIs, along with HTML, CSS, Bootstrap, and JavaScript to create an "inspire" homepage which has a to do list, and generates random quotes and images
- Kanban - Pair programming project which created a Kanban website, connecting to a unique server, allowing users to register an account, log in, and create multiple boards/lists, and tasks. Done with HTML, CSS, JavaScript, Bootstrap, Node.js, and Vue
- PawBnB - A group project to create a full stack application similar in functionality to AirBnb but for dog housing. Built using HTML, CSS, JavaScript, Node.js, and Vue
